AUTHOR GUIDELINES

Authors are kindly requested to submit their manuscript only through the online submission module at http://italianbotanist.pensoft.net. In case of difficulties with the submission procedure, please contact italianbotanist@pensoft.net. Full text of author guidelines is available at: http://italianbotanist.pensoft.net/about/AuthorGuidelines

EXCEPTS from the Guidelines

Body Text. All papers must be in English, checked by a native English-speaking colleague (if author(s) is/are not native English speaker(s)). Write with precision, clarity, and economy, use the active voice and first person whenever appropriate.

WEB (HTML) Links. Authors may include links to other Internet resources in their article. This is especially encouraged in the reference section. When inserting a reference to a web-page, please include the http:// portion of the address.

Citations within the text. Citations within the text: Before submitting the manuscript, please check each citation in the text against the References section to ensure that they match exactly. Citations in the text should be formatted as follows: Smith (1990) or (Smith 1990), Smith et al. (1998) or (Smith et al. 1998) and (Smith et al. 1998, 2000, Brock and Gunderson 2001, Felt 2006).

REFERENCES. It is important to format the references properly, because all references will be linked electronically as completely as possible to the papers cited. It is desirable to add a DOI (digital object identifier) number for either the full-text or title and abstract of the article as an addition to traditional volume and page numbers. If a DOI is lacking, it is recommended to add a link to any online source of an article. Please use the following style for the reference list:

Accepted Papers: Same as above, but “in press” appears instead the year in parentheses.

Citations of Public Resource Databases: It is highly recommended to include all appropriate datasets, images, and information to be deposited in public resources. Please provide the relevant accession numbers (and version numbers, if appropriate). Examples of such databases include:

• IPNI (www.ipni.org)
• Morphbank (www.morphbank.net)
• Genbank (www.ncbi.nlm.nih.gov/Genbank)
• BOLD (www.barcodinglife.org)

Providing accession numbers to data records stored in global data aggregators allows us to link your article to established databases, thus integrating it with a broader collection of scientific information. Please hyperlink all accession numbers through the text or use the active voice and first person whenever appropriate.

International Code of Nomenclature for algae, fungi and plants. Italian Botanist publishes papers that strictly adhere the rules of the last edition of the International Code of Nomenclature for Algae, Fungi and Plants. Descriptions of new taxa (species and below) should include the following: 1) a short Latin diagnosis followed by a full description in English, 2) an illustration (line drawing or photograph) clearly showing the diagnostic characters, 2) a comparison of the new taxon with related taxa, a diagnostic key to identification of species-group members, or at least to the closest relatives is highly desirable and may be requested by the editors 3) a discussion of the distinctive morphological characteristics, ecology, geography, and/or reproductive biology, and 4) a statement on preliminary [at least] conservation status for the taxon being described.

Open Access Fees. A limited number of free articles can be published for authors who have been invited by the editors.
